2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies have been adopted by Vietcombank in the preparation and presentation of these consolidated financial statements.

(a) Purpose of preparing the consolidated financial statements

The Bank has subsidiaries as disclosed in Note 1(d). The Bank prepared these consolidated financial statements to meet the prevailing requirements in relation to disclosure of information, specifically the Circular No. 155/2015/TT-BTC dated 6 October 2015 of the Ministry of Finance on disclosure of information on the securities market ("Circular 155"). In addition, as required by Circular 155, the Bank has prepared the separate financial statements of the Bank for the year ended 31 December 2019 ("the separate financial statements") which was issued on 11 March 2020.

(b) Basis of financial statement preparation

The consolidated financial statements, presented in Vietnam Dong ("VND") and rounded to the nearest million VND ("VND million"), have been prepared in accordance with Vietnamese Accounting Standards, Vietnamese Accounting System for Credit Institutions issued by the State Bank of Vietnam and the relevant statutory requirements applicable to financial reporting.

The consolidated financial statements, except for the consolidated statement of cash flows, are prepared on the accrual basis using the historical cost concept. The consolidated statement of cash flows is prepared using direct method.

(c) Annual accounting period

Vietcombank's annual accounting period is from 1 January to 31 December.

(d) Foreign currency transactions

According to Vietcombank's accounting system, all transactions are recorded in their original currencies. Monetary items denominated in currencies other than VND are translated into VND at the exchange rates prevailing at the end of the annual accounting period. Non-monetary items denominated in foreign currencies are translated into VND at the exchange rate as at the date of the transaction. Income and expenses in foreign currencies are translated into VND in the consolidated statement of income at spot exchange rates as at the date of transaction.

Foreign exchange differences arising from foreign currencies trading activities in the year were recorded in the consolidated statement of income at the end of the annual accounting period.

In order to prepare the consolidated financial statements, for the subsidiaries using the consolidation method and for the associates and joint-ventures using the equity method, which have accounting currencies other than VND, assets, liabilities and equity of these companies are converted into VND at spot rates on the consolidated balance sheet date, and the income and expenses in the statement of income are converted into VND at the average exchange rate for the annual accounting period. Exchange differences arising from the conversion are taken into equity in the consolidated balance sheet.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS Form B05/TCTD-HN

for the year ended 31 December 2019 (continued)

(e) Basis of consolidation

(i) *Subsidiaries*

Subsidiaries are entities controlled by the Bank. The control exists when the Bank has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing the control, potential voting rights that presently are exercisable are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that the control commences until the date that the control ceases.

Inter-company balances, transactions and profit/loss on transactions between those subsidiaries and the Bank are eliminated in full in the consolidated financial statements. The accounting policies of subsidiaries have been changed if necessary to ensure the consistency with the policies adopted by the Bank.

Non-controlling interest is the portion of the profit or loss and net assets of a subsidiary attributable to equity interest that are not owned, directly or indirectly through subsidiaries, by the Bank.

(ii) *Associates and joint-ventures*

Associates are those entities to which the Bank has significant influence, but not control, over their financial and operating policies.

Joint-ventures are those entities to which the Bank has joint control, established by contractual agreements and require unanimous consent of all joint-venture investors for the entity's strategic financial and operating decisions.

The Bank uses the equity method for consolidating its investments in associates and joint ventures in the consolidated financial statements. The Bank's share of post acquisition profits or losses of its associates and joint-ventures is recognised in the consolidated statement of income. When the Bank's share of losses in associates and joint-ventures equals or exceeds the cost of its investments in the associates and joint-ventures, the Bank does not recognise further losses in its consolidated financial statements, unless it has obligations to pay on behalf of the associates and joint-ventures. Accounting policies of associates and joint-ventures have been changed where necessary to ensure consistency with the policies adopted by the Bank.

(f) Cash and cash equivalents

Cash and cash equivalents include cash on hand, balances with the State Banks, treasury bills and other short-term valuable papers which are eligible for discounting with the State Banks, balances with and loans to other credit institutions with original terms to maturity not exceeding three months from the original date of placements or granting; investments in securities with recoverability or maturity not exceeding three months that are readily convertible into known amounts of cash, and that are subjected to an insignificant risk of change in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS Form B05/TCTD-HN

for the year ended 31 December 2019 (continued)

(g) Balances with and loans to other credit institutions

Balances with other credit institutions, except for current deposits, are term deposits at other credit institutions and foreign bank branches with terms of not exceeding three months.

Loans to other credit institutions are loans with original terms to maturity of not exceeding twelve months.

Current deposits at other credit institutions are stated at the amount of the outstanding principal.

Term deposits with and loans to other credit institutions are stated at the amount of the outstanding principal less any specific allowance for credit risks.

Credit risk classification of term deposits with and loans to other credit institutions and allowance for credit risk thereof is made in accordance with Circular No. 02/2013/TT-NHNN dated 21 January 2013 of the State Bank of Vietnam on classification of assets, level and method of allowance making, and use of allowance against credit risks in banking activities of credit institutions and foreign banks' branches ("Circular 02") and Circular No. 09/2014/TT-NHNN dated 18 March 2014 of the SBV on amending and supplementing a number of articles of Circular 02 ("Circular 09"). Accordingly, the Bank has made specific allowance for term deposits with and loans to other credit institutions in accordance with the method described in Note 2(h).

According to Circular 02, the Bank is not required to make general allowance for balances with and loans to other credit institutions.

(h) Loans to customers

(i) *Loans to customers*

Loans to customers are stated in the consolidated balance sheet at the principal amounts outstanding as at the reporting date.

Allowance for credit risk of loans to customers is recorded and stated in a separate line in the consolidated balance sheet. Allowance for credit risk comprises specific allowance for credit risk and general allowance for credit risk.

Loan classification and allowance for credit risk of loans to customers thereof is made in accordance with Circular 02 and Circular 09.

(ii) *Specific allowance for credit risk*

Since 1 January 2010, the Bank has applied Article 7, Decision No. 493/2005/QĐ-NHNN dated 22 April 2005 issued by the SBV to make debt classification based on the qualitative method as approved by the SBV. However, according to Circular 02, the Bank is required to classify debts and off-balance sheet commitments in accordance with both Article 10 and Clause 1 of Article 11, Circular 02. In that case, should classifications of a debt in accordance with Article 10 and Clause 1 of Article 11, Circular 02 differ, the debt is to be classified into the group of higher risk.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS Form B05/TCTD-HN

for the year ended 31 December 2019 (continued)

Since 1 January 2015, the Bank uses the information from Credit Information Center ("CIC") about the debt group of customers at the time of debt classification to adjust the debt group, off-balance sheet items. If a customer's debts and off-balance sheet commitments are classified in a debt group that has a lower risk than the debt groups provided in CIC's list, the Bank shall adjust its classification of debts and off-balance commitments following the debt groups provided by CIC.

Specific allowance is calculated based on the following allowance rates specified for the debt principal less the discounted value of collateral assets:

	Allowance rate
Group 1 - Current debt	0%
Group 2 - Special mentioned debt	5%
Group 3 - Sub-standard debt	20%
Group 4 - Doubtful debt	50%
Group 5 - Loss debt	100%

Bad debts are debts within groups 3, 4 and 5.

(iii) *General allowance for credit risk*

The Bank is required to make a general allowance of 0.75% of total outstanding debt balance of which are classified into Groups 1 to 4 as at the last working day of a quarter. For the fourth quarter of the year, a general allowance is made at 0.75% of total outstanding balance of loans which are classified into Groups 1 to 4 as at the last working day of November.

(iv) *Bad debts written-off*

According to Circular 02, the Bank writes off bad debts in the following cases:

- » Borrowers who are dissolved, bankrupted under legal regulations (in case of legal entities); or are deceased or missing (in case of individuals);
- » Debts are classified into Group 5.

(i) **Investments**

(i) *Trading securities*

Trading securities are debt securities, equity securities and other securities which are bought and held for the purpose of reselling within one year to earn capital gains.

Trading securities are initially recognised at the cost of acquisition. They are subsequently measured at the lower of book value and market price. Gains or losses from the sales of trading securities are recognised in the consolidated statement of income.

(ii) *Investment securities*

Investment securities are classified into two categories: available-for-sale and held-to-maturity investment securities. Vietcombank classifies investment securities on their purchase dates. In accordance with Official Letter No. 2601/NHNN-TCKT dated 14 April 2009 by the SBV, Vietcombank is allowed to reclassify investment securities once, at maximum, after the purchase date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS Form B05/TCTD-HN

for the year ended 31 December 2019 (continued)

Available-for-sale investment securities

Available-for-sale investment securities are debt securities, equity securities or other securities, which are acquired for an indefinite period and may be sold at any time. For equity securities, the investee is not a subsidiary, associate or joint-venture of Vietcombank and Vietcombank is neither a founding shareholder nor a strategic partner; nor has the impact on the enterprise's planning and determining of financial and operating policies under agreements to appoint personnel to the Members' Council/Board of Directors/Board of Management.

Held-to-maturity investment securities

Held-to-maturity investment securities are debt securities, with fixed or determinable payments and maturities where Vietcombank's management has the positive intention and ability to hold until maturity.

Investment securities are initially recognised at cost of acquisition, including transaction costs and other directly attributable costs. They are subsequently measured at the lower of the book value after amortisation and the market price. Premiums and discounts arising from purchases of debt securities are amortised in the consolidated statement of income using the straight-line method over the period from the acquisition dates to the maturity dates.

In addition, according to Circular 02 and Circular 09, investment securities which are unlisted corporate bonds (including bonds issued by other local credit institutions on the secondary market) are subject to classification and allowance in a manner similar to loans to customers described in Note 2(h).

(iii) *Other capital contributions, long-term investments*

Other long-term investments represent Vietcombank's capital investments in other enterprises where Vietcombank owns less than 11% of voting rights and is either a founding shareholder or a strategic partner; or has influences on the enterprise's planning and determining of financial and operating policies under agreements to appoint personnel to the Members' Council/Board of Directors/Board of Management but Vietcombank does not have control or significant influence over the investees.

Other long-term investments include equity securities and other long-term capital contributions which are intended to hold for more than one year (except for capital contributions and investments into joint-ventures, associates and subsidiaries).

Other long-term investments are initially recognised at cost less allowance for diminution in value of the investments.

The allowance for diminution in the value of long-term investments is made for the local economic entity owned by the Bank at the end of the annual accounting period which has signs of decrease in value compared to the Bank's investment value in accordance with Circular No. 48/2019/TT-BTC dated 8 August 2019 issued by the Ministry of Finance ("Circular 48"). Accordingly, the allowance amount for the investment is the difference between the parties' actual investment capital at the economic entity receiving capital contribution and actual equity capital of economic entity at the time of provisioning multiplied (x) by the actual rate of chartered capital of the Bank at the economic entity at the time of provisioning. For an investment in listed securities or investments which market price can be determined reliably, allowance is made based on the securities' market price.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS Form B05/TCTD-HN

for the year ended 31 December 2019 (continued)

(j) Repurchase and reverse repurchase agreements

Securities sold under agreements to repurchase at a specific date in the future (repos) are still recognised in the consolidated financial statements. The corresponding cash received from these agreements is recognised in the consolidated balance sheet as a liability. The difference between the sale price and repurchase price is amortised in the consolidated statement of income over the term of the agreement using the straight-line method based on the interest rate stipulated in the contract.

Securities purchased under agreements to resell at a specific date in the future are not recognised in the consolidated financial statements. The corresponding cash paid under these agreements is recognised in the consolidated balance sheet in "Loans to customers". The difference between the purchase price and resale price is amortised over the term of the agreement using the straight-line method based on the interest rate stipulated in the contract and recognised in the consolidated statement of income.

(k) Tangible fixed assets

(i) Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use on the site where it is located.

In accordance with Circular No. 45/2013/TT-BTC dated 25 April 2013 issued by the Ministry of Finance ("Circular 45") guiding the framework of management, use and depreciation of fixed assets, assets shall be considered as fixed assets if they meet all of the following three criteria:

- » It is certain to gain future economic benefits from the use of such assets;
- » The useful life of assets is above one year;
- » Historical costs of the assets must be determinable reliably, with a minimum value of VND 30,000,000.

Expenditures incurred after the tangible fixed assets have been put into operation, such as repairs and maintenance and overhaul costs, are normally charged to the consolidated statement of income for the year in which the costs are incurred. In case it can be clearly demonstrated that these expenditures have resulted in an increase in the expected future economic benefits obtained from the use of these tangible fixed assets beyond their originally assessed standard level of performance, the expenditures will be capitalised as an additional cost of tangible fixed assets.

(ii) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

» Buildings and structures	25 years
» Machinery and equipment	3 - 5 years
» Motor vehicles and means of transmission	6 years
» Other tangible fixed assets	4 years

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Form B05/TCTD-HN

for the year ended 31 December 2019 (continued)

(I) Intangible fixed assets

(i) Land use rights

According to Circular 45, intangible fixed assets recognised as land use rights comprise:

- » The land use rights allocated by the State with land use fee or receiving the transfer of legal land use rights (including definite and indefinite land use rights);
- » The rights to use the leased land before the effective date of the Land Law 2003 but the rent has been paid for the leasing time or paid in advance for many years and the remaining paid land lease term is at least five years and granted with certificate of land use rights by the competent authority.

The initial cost of land use rights is determined as the total amount paid to have the land use rights plus costs of site clearance, ground levelling, registration fee (excluding costs of construction on that land) or the value of land use rights with contributed capital.

Land use rights not recognised as intangible assets comprise:

- » Land use rights allocated by the State without land use fee;
- » Land lease rent paid one time for the entire lease term (the land lease time after the effective date of the Land Law 2003 without certificate of land use rights granted), the rent is amortised into the business expenses by the number of lease periods;
- » Land lease rent paid annually, the rent is recorded into the business expenses in the year in proportion to the rent annually paid.

According to Circular 45, intangible fixed assets which are long-term land use rights with land use fee or receiving the legal long-term land use rights are not amortised.

For the intangible fixed assets which are the value of land use rights with term or the leased land use rights, the period of depreciation is the period permitted for land use of Vietcombank.

(ii) Copyrights, patents and other intangible fixed assets

Copyrights, patents and other intangible fixed assets are stated at cost less accumulated amortisation. These intangible fixed assets are amortised on a straight-line basis over 4 years.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS Form B05/TCTD-HN

for the year ended 31 December 2019 (continued)

(m) Other assets

Except for receivables from uncollectible income as presented in Note 2(t), allowance for overdue other assets which are not classified as assets bearing credit risk are made in accordance with Circular 48 and Circular No. 200/2014/TT-BTC issued by the Ministry of Finance on 22 December 2014 ("Circular 200"). Accordingly, allowance for these assets is based on their overdue period or estimated irrevocable loss for debts that are not due but the Bank has collected evidence to identify that debtor has become bankrupt, filing for bankruptcy or has absconded; or being prosecuted, detained or tried by law enforcement bodies or serving a sentence; or suffering from a serious illness (certified by the hospital); deceased; or those remains irrecoverable after the enterprise filing a lawsuit due to its debtor had fled from his/her residence; the debt which has been sued for debt collection by the Bank but the case has been suspended.

Overdue period	Allowance rate
From six (6) months to less than one (1) year	30%
From one (1) year to less than two (2) years	50%
From two (2) years to less than three (3) years	70%
From three (3) years and above	100%

For other assets that are classified as assets with credit risk, Vietcombank conducts debt classification and makes allowance similarly to those of loans to customers described in Note 2(h).

(n) Deposits and borrowings from other credit institutions

Deposits and borrowings from other credit institutions are stated at cost.

(o) Deposits from customers

Deposits from customers are stated at cost.

(p) Valuable papers issued

Valuable papers issued are stated at cost and accumulated amortised premiums or discounts. Cost of valuable papers issued includes the proceeds from the issuance less directly attributable costs.

(q) Severance allowance

Under the Vietnamese Labour Code, when an employee who has worked for Vietcombank for 12 months or more ("the eligible employees") voluntarily terminates his/her labour contract, Vietcombank is required to pay the eligible employee severance allowance calculated based on years of service until 31 December 2008 and employee's average monthly salary of the latest six-month period until termination. Before 2012, provision for severance allowance has been provided based on employees' years of service and their current salary level.

On 24 October 2012, the Ministry of Finance issued Circular No. 180/2012/TT-BTC guiding the financial treatment for redundancy allowance to employees of enterprises. This circular provides that, in preparation of financial statements for the year 2012, if an enterprise's provision for severance allowance still has the outstanding balance, the enterprise must reverse the balance to other income for the year 2012 and must not carry forward the balance to the following year. Accordingly, Vietcombank reversed the outstanding balance of provision for severance allowance. This change in accounting policy has been applied prospectively from 2012.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS Form B05/TCTD-HN

for the year ended 31 December 2019 (continued)

(r) Bonus and welfare funds

Bonus and welfare funds are allocated from profit after tax in accordance with the Resolution of the General Meeting of Shareholders and recorded as liabilities in the consolidated balance sheet. The bonus and welfare funds are used for the purposes specified in Decree No. 93/2017/ND-CP dated 7 August 2017 issued by the Government ("Decree 93").

(s) Capital and reserves

(i) Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of ordinary shares are recognised as a deduction from share premium in equity.

(ii) Share premium

On receipt of capital from shareholders, the difference between the issuance price and the par value of the shares is recorded as share premium in equity.

(iii) Treasury shares

When Vietcombank repurchases its ordinary shares, the total paid amount including directly attributable costs, net off any tax effects, is recognised as a deduction from equity and referred to as treasury shares.

(iv) Reserves

Reserves are for specific purposes and appropriated from net profit after tax of the Bank and Vietcombank Finance Leasing Company Limited ("VCBL") at prescribed rates as below:

- » Supplementary charter capital reserve: 5% of net profit after tax of each entity. According to Decree 93, the maximum rate for this reserve does not exceed the Bank's charter capital/VCBL.
- » Financial reserve: 10% of net profit after tax of each entity. The maximum rate for this reserve is not specified in Decree 93.
- » Investment and development reserve and other reserves: are to be made upon the resolutions of the General Meeting of Shareholders and in accordance with the relevant statutory requirements.

The remaining net profit after tax, after appropriation to reserves and dividends payment, is recorded as retained profits of Vietcombank.

Vietcombank Securities Company Limited ("VCBS") appropriates of profits to reserves in accordance with Circular No. 146/2014/TT-BTC issued by the Ministry of Finance on 6 October 2014 as follows:

- » Supplementary charter capital reserve: 5% of net profit after tax and does not exceed 10% of VCBS's charter capital.
- » Financial reserve: 5% of net profit after tax and does not exceed 10% of VCBS's charter capital.

(v) Foreign exchange difference

Foreign exchange differences are differences arise when financial statements in foreign currencies of overseas subsidiaries converted into VND for consolidation purpose.

for the year ended 31 December 2019 (continued)

(t) **Income and expenses**

(i) *Interest income and interest expenses*

Interest income of outstanding debts classified in Group 1 – Current debt as defined in Note 2(h) is recognised on an accrual basis. Interest on debts classified in Group 2 to Group 5 is recognised in the consolidated statement of income upon receipt.

Interest expenses are recorded on an accrual basis.

(ii) *Fee and commission and dividend income*

Fee and commission income is recognised on an accrual basis. Cash dividends from investment activities are recognised in the consolidated statement of income when Vietcombank's right to receive payment is established.

(iii) *Share dividends*

In accordance with Circular 200, dividends and other distribution received in the form of bonus shares and share dividends and amounts distributed in the form of shares coming from retained profits, share premium and reserves in equity of joint stock companies, are not recorded in the consolidated statement of income. Instead, the additional shares obtained are reflected in the number of shares held by Vietcombank.

(iv) *Uncollectible income*

According to Circular No. 16/2018/TT-BTC dated 7 February 2018 issued by the Ministry of Finance, income receivables that are recognised as income but uncollectible at the due date are reversed as a reduction of income if the due date is within the same annual accounting period, or recorded as an expense if the due date is not within the annual accounting period, and must be monitored on the off-balance sheet for following-up on collection. When the receivable is collected, Vietcombank will record it as an operating income.

(u) **Lease**

(i) *Lessee*

Payments made under operating leases are recognised in the consolidated statement of income on a straight-line basis over the term of the lease.

(ii) *Lessor*

Vietcombank recognises finance leased assets as "Loans to customers" in the consolidated balance sheet at the net value of the investment defined in the lease contract. Income from finance leases are recognised as "Income from interest and similar income". Instalment income is amortised over the lease term using interest rate over the net investment of the leased assets. The classification of finance lease receivables has been made in accordance with the quantitative method as stipulated in Article 10 of Circular 02.

Vietcombank recognises operating lease assets in the consolidated balance sheet. Rental income is recognised on a straight-line basis over the lease term whatever payment method is. Expenses occurred during the leasing period, including depreciation expenses are recognised as operating expenses for the year.

for the year ended 31 December 2019 (continued)

(v) Taxation

Corporate income tax comprises of current and deferred tax. Corporate income tax is recognised in the consolidated statement of income except that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current income tax is the expected tax payable on the taxable income for the year, using tax rates enacted at the end of the annual accounting period, and any adjustment to tax payables in respect of the previous years.

Deferred income tax is calculated by using the balance sheet method, providing for the temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred income tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities using tax rates enacted or substantively enacted at the end of the annual accounting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(w) Related parties

Related parties of Vietcombank include:

- » Individuals or organisations which have the authority to appoint managers or members of the Supervisory Board of the parent company of the Bank;
- » Management or members of the Supervisory Board of Vietcombank;
- » Companies or organisations which have the authority to appoint managers, or members of the Supervisory Board of Vietcombank;
- » Wives, husbands, parents, children (including foster parents, foster children, parents-in-law, son-in-law, daughter-in-law, step parents, step children), siblings (including half siblings), brothers-in-law, sisters-in-law of managers or members of the Supervisory Board, capital contributors or shareholders who hold at least 5% of charter capital or share capital with voting rights of the Vietcombank;
- » Individuals or organisations that hold at least 5% of charter capital or share capital with voting rights of Vietcombank;
- » Representatives for Vietcombank's paid-in capital and shares.

The Government of Vietnam, through the State Bank of Vietnam, is a shareholder of Vietcombank. Therefore, in these consolidated financial statements, some Government agencies, including the Ministry of Finance and the State Bank of Vietnam are considered as related parties of Vietcombank.

(x) Segment reporting

A segment is a distinguishable component of Vietcombank engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

(y) Off-balance sheet items

(i) Foreign exchange contracts

Vietcombank enters into foreign exchange forward and swap contracts which enable customers to transfer, modify or reduce their foreign exchange risk or other market risks and also are used for Vietcombank's business purpose.

Forward contracts are commitments to either purchase or sell a designated currency at a specific future date for a specific exchange rate and cash settlement. Forward contracts are recorded at nominal values at transaction dates and are subsequently revaluated at the end of the accounting period. Differences on revaluation are recognised under "Foreign exchange differences" in the equity and is recorded in the consolidated statement of income at the end of the annual accounting period. Differences between the amount in VND of the foreign currency amounts which are committed to buy/sell at forward rate and spot rate are recognised in the consolidated statement of income on a straight-line basis over the term of the contracts.

Currency swap contracts are commitments to settle in cash at a future date based on differences between specified exchange rates, calculated on the notional principal amount. Premiums/discounts arising from the difference of the spot exchange rate at the effective date of the contracts and the forward exchange rate will be recognised immediately on the effective date of the contracts as an asset if they are positive or as a liability if they are negative in the consolidated balance sheet. This difference is amortised to the consolidated statement of income on a straight-line basis over the term of the swap contracts.

(ii) Interest swap contracts

Interest swap contracts are commitments to settle in cash the notional principal amounts at the interest amount based on floating or fixed interest rates. The value of commitment in interest rate swap contracts is not recognised on the consolidated balance sheet. The difference of swap interest rates is recognised in the consolidated statement of income on an accrual basis.

(iii) Commitments and contingent liabilities

Vietcombank has credit commitments arising from its regular lending activities. These commitments are unutilised loans and overdraft facilities which are approved. Vietcombank also provides financial guarantees and letters of credit to guarantee the performance of customers to third parties. Many of the contingent liabilities and commitments will expire without any advanced payment, in whole or in part. Therefore, these commitments and contingent liabilities do not represent expected future cash flows.

According to Circular 02 and Circular 09, Vietcombank, for management purpose, has to classify guarantees, payment acceptances and irrevocable lending commitments with specific effective date into 5 groups, similar to loans to customers (Note 2(h)).

(z) Offsetting

Financial assets and liabilities are offset and the net amounts are reported in the consolidated balance sheet if, and only if, Vietcombank has currently enforceable legal rights to offset the recognised amounts and Vietcombank has an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS Form B05/TCTD-HN

for the year ended 31 December 2019 (continued)

(aa) Basic earnings per share

Vietcombank presents basic earnings per share ("EPS") data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of Vietcombank (after adjustment for appropriation to bonus and welfare funds) by the weighted average number of ordinary shares outstanding during the year.

If new shares issued during the year only change the number of shares, not the equity, Vietcombank will adjust the weighted average number of ordinary shares outstanding during the year presented on the consolidated financial statements, which leads to corresponding adjustment for EPS.

3. PRESENTATION OF FINANCIAL INSTRUMENTS IN ACCORDANCE WITH CIRCULAR NO. 210/2009/TT-BTC

During its business operations, Vietcombank regularly enters into contracts which give rise to financial assets, financial liabilities and equity instruments.

Financial assets of Vietcombank mainly include:

- » Cash;
- » Balances with the State Banks;
- » Balances with and loans to other credit institutions;
- » Trading securities;
- » Loans to customers;
- » Investment securities;
- » Capital contributions, long-term investments;
- » Financial derivative assets; and
- » Other financial assets.

Financial liabilities of Vietcombank mainly include:

- » Amounts due to the Government and the State Banks;
- » Deposits and borrowings from other credit institutions;
- » Deposits from customers;
- » Funds for finance, entrusted investments and entrusted loans;
- » Valuable papers issued;
- » Financial derivative liabilities; and
- » Other financial liabilities.

(a) Classification of financial assets and liabilities

Only for the disclosure purpose in the consolidated financial statements, Vietcombank classifies financial assets and financial liabilities in accordance with Circular No. 210/2009/TT-BTC dated 6 November 2009 issued by the Ministry of Finance ("Circular 210").

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Form B05/TCTD-HN

for the year ended 31 December 2019 (continued)

Financial assets are classified as:

- » Financial assets held for trading;
- » Held-to-maturity investments;
- » Loans and receivables; and
- » Available-for-sale financial assets.

Financial liabilities are classified as:

- » Financial liabilities held for trading; and
- » Financial liabilities carried at amortised cost.

(b) Measurement and disclosures of fair value

In accordance with Circular 210, Vietcombank has to disclose the fair value of financial assets and financial liabilities to compare with the book value of those financial assets and financial liabilities as presented in Note 43(b).

The preparation and presentation of the fair value of the financial instruments are only for the purpose of presenting in Note 43(b). The financial instruments of Vietcombank are still recognised and recorded in accordance with Vietnamese Accounting Standards, Vietnamese Accounting System for Credit Institutions issued by the State Bank of Vietnam and the relevant statutory requirements applicable to financial reporting as described in the notes above.

Fair value is the amount for which an asset could be exchanged, or a liability settled, among knowledgeable, willing parties in an arm's length transaction on the recognition date.

When an active market exists for a financial instrument, Vietcombank measures the fair value of that instrument using its quoted price in the active market. A market is regarded as active if quoted prices are readily and regularly available and represent actual and regularly occurring market transactions.

In case there is not enough information to utilise valuation techniques, fair value of the financial instruments without quoted market prices in the active market are deemed not to have been reliably measured and therefore, not disclosed.

40. CONTINGENT LIABILITIES AND OTHER COMMITMENTS

In the normal course of business, Vietcombank is a party to financial instruments which are recorded as off-balance sheet items. These financial instruments mainly comprise financial guarantees and letters of credit. These instruments involve elements of credit risk in excess of the amounts recognised in the consolidated balance sheet.

Credit risk for off-balance sheet financial instruments is defined as the possibility of incurring a loss because any other counterparty to a financial instrument fails to discharge its contractual obligations.

Financial guarantees are conditional commitments issued by the Bank to guarantee transactions of its customers with third parties including loan guarantee, payment guarantee, performance guarantee and bid guarantee. Such guarantees expose the Bank to similar credit risk to loans to customers.

Commercial at sight letters of credit represent a financing transaction by Vietcombank to its customers where the customer is usually the buyer/importer of goods and the beneficiary is typically the seller/exporter. Credit risk is limited as the imported merchandise serves as collaterals for the transaction.

Deferred payment letters of credit contain the risk of customers not making payment to their beneficiaries upon contract performance. When deferred payment letters of credit are defaulted by customers, Vietcombank recognises a compulsory loan to a customer and at the same time a corresponding liability representing the financial obligation of Vietcombank to pay the beneficiaries and to fulfil the guarantor obligations.

Vietcombank normally requires margin deposits to support credit-related financial instruments as necessary. The margin deposits ratio required varies from nil to 100% of the value of a commitment granted depending on the creditworthiness of customers as assessed by Vietcombank.

43. DISCLOSURE OF FINANCIAL INSTRUMENTS (CONTINUED)

(c) Risk management policies for financial instruments

The Board of Directors has the highest rights and responsibilities for Vietcombank's financial risk management to facilitate its sustainable growth.

Having taken those responsibilities, the Board of Directors appropriately promulgates risk management policies and strategies for each period, establishes risk limits, directly approves high-value business transactions in accordance with legal and internal requirements for each period, and determines organisational structure and key personnel positions.

Risk management strategies and policies of the Board of Directors are adhered to Vietcombank's charter and General Shareholders' Meeting resolution for each period.

The Risk Management Committee was established by the Board of Directors to assist the Board of Directors in managing all risks that may arise from Vietcombank's day-to-day business operations.

The Asset and Liability Credit and Operational Risk Committee ("ALCO") was established and chaired by the Chief Executive Officer. ALCO members are key personnel of the Bank being in-charge of risk management.

ALCO is responsible for comprehensively monitoring and managing assets and liabilities in the consolidated and separate balance sheet of Vietcombank in order to maximise profit while minimising losses arising from negative market trends, manage liquidity risk and appropriately direct interest and foreign exchange rate schemes.

Within its authority, ALCO has the rights to make risk management decisions.

(i) *Credit risk*

Vietcombank is exposed to credit risk, which is the risk of incurring a loss because its customers or counterparties fail to discharge their contractual obligations. Credit exposures arise mainly in lending activities relating to loans to customers, and in investments in debt securities. Off-balance sheet financial instruments, such as loan commitments, also contain credit risk. Vietcombank controls and manages credit risk by setting up related policies and procedures, including the credit risk management policies and operational risk management policy by the Risk Management Committee and Credit Committee.

Vietcombank classifies loans to customers and other credit institutions, off-balance sheet commitments, entrusted loans and unlisted corporate bonds in accordance with Circular 02 and Circular 09 (Note 2(h)), and regularly assesses credit risks of non-performing loans in order to have appropriate resolutions.

In order to manage credit risks, Vietcombank has established policies and procedures relating to credit risk management; established credit manuals; performed credit risk assessment; set up internal credit rating systems and debt classification and decentralised authorisation in credit activities.

(ii) *Interest rate risk*

Interest rate risk is the risk that the future cash flows of a financial instrument will unexpectedly fluctuate due to changes in market interest rates.

The actual interest re-pricing term is the remaining term starting from the end of the annual accounting period to the nearest interest re-pricing term of the items in the consolidated balance sheet.

The following assumptions and conditions have been adopted in the analysis of actual interest re-pricing term of asset and liabilities items in the consolidated balance sheet of Vietcombank:

- » Cash, gold, silver and gemstones, capital contributions, long-term investments, and other assets (including fixed assets and other assets) are classified as free of interest items;
- » Trading securities which are debt securities are classified as "Up to 1 month" items;
- » The actual interest re-pricing terms of investment securities are subject to issuers' terms and conditions on interest rate of issuing institution for each security type;
- » The actual interest re-pricing term of balances with and loans to other credit institutions, loans to customers, amounts due to the Government and the State Banks, deposits and borrowings from other credit institutions, deposits from customers, funds for finance, entrusted investments, entrusted loans and other liabilities are identified as follows:
 - » Items with fixed interest rate during the contractual term: the actual interest re-pricing term is based on the contractual maturity date subsequent to the end of the annual accounting period;
 - » Items with floating interest rate: the actual interest re-pricing term is based on the nearest re-pricing term subsequent to the end of the annual accounting period.
- » The actual interest re-pricing term of valuable papers issued is based on valuable papers' maturities and the Bank's interest rate for each issuance.

(iii) *Currency risk*

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. Vietcombank was incorporated and operates in Vietnam, with VND as its reporting currency. The major currency in which the Bank transacts is VND. Vietcombank's loans to customers are mainly denominated in VND, USD and EUR. Some of Vietcombank's other assets and other liabilities are in currencies other than VND, USD and EUR. Vietcombank has set limits on currency positions based on its internal risk management system and relevant statutory requirements stipulated by the SBV. Currency positions are monitored on a daily basis and hedging strategies used to ensure positions are maintained within established limits.

The followings are the major exchange rates applied by Vietcombank at the reporting date:

	Exchange rate as at	
	31/12/2019	31/12/2018
USD/VND	23,170	23,200

(iv) *Liquidity risk*

Liquidity risk occurs when Vietcombank fails to fulfil its financial commitments with customers or counterparties due to unavailability of funds or liquidity.

The maturity of assets and liabilities represents the remaining terms of these assets and liabilities from the end of the annual accounting period to the maturity date according to the underlying contractual agreements or term of issuance.

The following assumptions and conditions have been adopted in the preparation of Vietcombank's assets and liabilities maturity analysis in the consolidated balance sheet:

- » Balances with the State Banks are considered as current accounts including the compulsory deposits;
- » The maturity of trading securities is considered as below one month because they are held in the short term for profit taking due to price differences;
- » The maturity of investment securities is based on maturity dates of each securities established by the issuers of these financial instruments;
- » The maturities of balances with and loans to other credit institutions and loans to customers are based on the contractual maturity date. The actual maturity may vary from the original contractual term when the contract is extended;
- » The maturity of equity investments is considered to be over five years as equity investments have no stated maturity; and
- » Deposits and borrowings from other credit institutions, deposits from customers and valuable papers issued are determined based on either the nature of the loans, deposits and valuable papers issued or their contractual maturities. For example, current accounts of other credit institutions at Vietcombank and current accounts of Vietcombank at other credit institutions paid upon customers' demand are considered to be demand deposits, the maturity of term deposits and borrowings is based on the contractual maturity date. In practice, such items may be rolled over and maintained for longer period.
